

ASSOCIATE OF APPLIED SCIENCE PROGRAM

TECHNOLOGY CONSTRUCTION

WNCs Construction program provides industry-specific training that addresses topics of critical importance to subcontractors, general contractors, superintendents and project managers. Students will study contract administration, coordination, negotiation, quality control and the management of labor resources, equipment and materials.

This degree allows those who have completed an associate degree in construction technology to progress academically and earn a bachelors degree.

Mission

The mission of the Associate of Applied Science in Technology is to provide employment-related knowledge and skills necessary to succeed as a professional in a chosen field of study.

Student Learning Outcomes

Students who complete an Associate of Applied Science in Technology are expected to:

-

Please see the Associate of Applied Science page on the college website for general educational requirements.
