WNC TAACCCT Grant Projects Summary

The Trade Adjustment Assistance Community College and Career Training (TAACCCT) program is funded and administered by the Department of Labor – Employment Training Administration. The program was established by the Trade Act of 2002 to provide training, education, and employment services to workers who have been impacted by international trade. We focused primarily on unemployed, trade impacted and underemployed populations, but also [illegible] high. We focused primarily on unemployed, trade impacted and underemployed populations, but also [illegible] population is TAA eligible, however, the numbers in Nevada are not [illegible]

				Cycle Period*	Amount
	9/30/2015 (extended 1 year from 2014 end date)		– Machining – Welding	Participants: 150 Completers: 120	Built Accelerated program model for Automotive Machining and Welding
					Focused on Industry Recognized, Third-
			– Machining/CNC	Participants: 182	
			– Applied Industrial Technology		
			Administrator	Part. To-date: 88 Compl. to-date: 25	$165,000 for electrical upgrades to MTT
			line content development and AEC services		Pending: $230,000 for Industrial Systems equipment to support Tesla related programs and Cisco equipment for distance learning labs
Round 4	10/1/2014 – 9/30/2018 (scheduled to end	$ 4,406,145	– Machine Tool – Welding – Certified Nursing Assistant	Participants: 249 Completers: 168	Funding for Veteran Resource Center positions is already having an impact on veteran outreach
					Programs start [illegible] information sharing between Nevada's
	TMCC $1,765,143	Services	Fall 2015	Community Colleges
